

SQL*LIMS®

Laboratory Information Management System

SQL*LIMS® Software is the right solution for analytical, development, and QA/QC manufacturing operations in the pharmaceutical, Food and Beverage, chemical, petrochemical and environmental industries. This enterprise LIMS solution manages your laboratory process lifecycle – from tracking raw materials and samples as they enter and travel the laboratory workflow, to sample analysis, managing data collection and reporting, communicating this information to your corporate systems, and more.

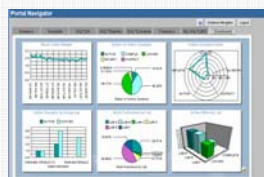

Instrument Interface

Now you can capture data from instruments directly to LIMS hence reducing time, eliminating errors and ensuring 100 % accuracy. Includes Instrument Calibration and maintenance scheduling

Paperless Operation

Reduces your overall paper consumption by 90%. Add files, SOP' and other attachments, to samples / tests / methods. Approval are done online using Electronic Signature

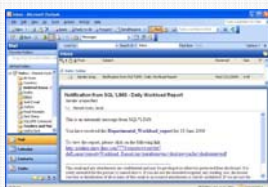

Dashboard

A graphical real-time representation of your laboratory data at your desktop with 'drill down' capability to view underlying data

Get notified through Email / SMS

SQL*LIMS alerts users through emails and SMS if any value / action does not comply with the laboratory' standards. View scheduled reports in your inbox before even logging on.

Barcoding

Reduce time and effort by Barcoding samples using SQL*LIMS

Meet Regulatory Requirements

SQL*LIMS enables your lab to conform with Good Laboratory Practices and environmental directives and makes it easier for your lab to attain certifications such as ISO 9001 / 17025

and many more...

About Al Essa - Informatics

Al Essa, head quartered in Kuwait, delivers total Analytical solutions to its clients.

With more than 30 years of experience in serving clients in Kuwait and GCC countries, we understand the Analytical industry, the technical requirements and business issues.

Our dedicated LIMS team, the largest in Kuwait, possess extensive domain knowledge of industry business processes.

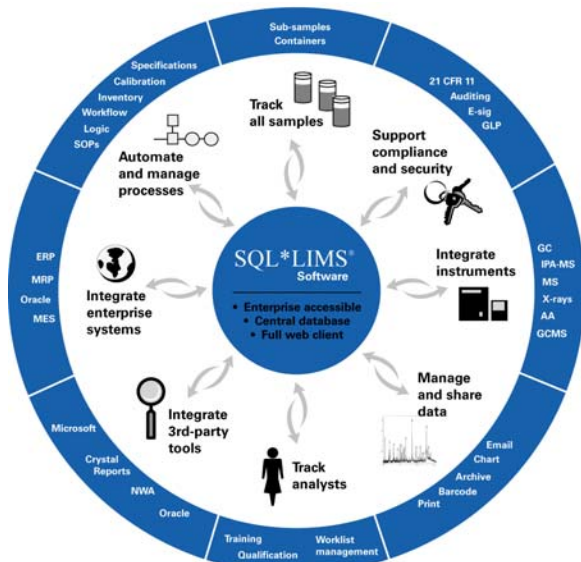

Value Proposition

SQL*LIMS® is the industry's most innovative, end-to-end solution to integrate, automate, and manage laboratory data and workflow processes for QA/QC manufacturing operations. The system's extended power simplifies large, multi-site deployments and reduces personnel overhead costs.

For More Details, visit

SQL*LIMS® will help you achieve...

- ✓ Increased throughput
- ✓ Reduced costs
- ✓ Compliance with regulations (ISO 9001, 17025, 21 CFR Part 11, Environmental Directives)
- ✓ Improved traceability
- ✓ A single repository of all laboratory data
- ✓ Easy access to laboratory data for the organisation and its clients
- ✓ Integration with other manufacturing systems
- ✓ Reduced paperwork
- ✓ Reduced errors through auto calculations, Instrument interface, Limit check

Our Installations

SQL*LIMS® have been successfully deployed at numerous locations, a few of which, in Kuwait, are shown below

Kuwait National Petroleum Co.

The Kuwait National Petroleum Company is the national oil refining company of Kuwait. Established in October 1960, KNPC handles the responsibility of oil refining, gas liquefaction, and distribution of petroleum goods within the local market. SQL*LIMS have been deployed at 3 refinery sites of KNPC namely Mina Abdulla, Mina Ahmadi and Mina Shuaiba.

Kuwait institute for Scientific Research

KISR is Kuwait' largest scientific and applied research facility and uses SQL*LIMS to meet its laboratories information management requirements

Kuwait University

The Health Sciences Center (HSC) of Kuwait University is the governing institution for the Faculty of Medicine, the Faculty of Allied Health Sciences, the Faculty of Pharmacy and the Faculty of Dentistry. It uses SQL*LIMS for its laboratory operations

Kharafi National

SQL*LIMS have been successfully deployed at Kharafi National's Sulaibiya Testing Laboratory, which is the largest plant in the world using the reverse osmosis technique to reclaim domestic wastewater.

and many more in the middle east and worldwide...
